

SAASSO's Vision

All schools are different, with different needs. Local Governance is your school community - not the education department - making the decisions, in the best interests of your children. Research shows that Local Governance is superior to central bureaucracies, because parents & the local community:

- are more committed to their members than central bureaucracies are to their clients
- understand their problems better than a bureaucracy
- are more flexible and creative than bureaucracies
- are cheaper than bureaucrats, leaving more dollars for actual service delivery.

The OECD stated benefits of Local Governance include:

- increased efficiency
- improved financial control
- reduction of bureaucracy
- increased responsiveness to local communities
- creative management of human resources
- improved potential for innovation
- creation of conditions that improve education quality.

Special Needs

On behalf of a delegation from schools, SAASSO is also petitioning the education minister to improve protection for special needs students when being transported. The government has agreed to require GPS & CCTV in vehicles - however, SAASSO is still campaigning for a trained SSO or HSO to accompany all special needs children in transit.
